

FREERUNNER™ 10TRX

The 10TRx FreeRunner creates a revolutionary feel for runners and walkers. HexDeck Technology creates an unprecedented cushion and responsiveness – lightweight walkers, heavyweight runners and everyone in between will experience initial cushion/flex at foot strike, along with an immediate response, returning support and energy for the push off.

HEXDECK TECHNOLOGY

Our HexDeck System features an aluminum deck supported by a proprietary, hexagonal polymer suspension system. The deck dissipates heat, keeping a cooler surface for the belt and reducing wear. The deck panel will last many times longer than MDF - only a thin phenolic layer needs replaced when worn, significantly reducing the labor and material long-term cost of ownership.

OPENHUB CONSOLE

The 19" Capacitive Touch OpenHub Console offers a premium user interface design, Star Trac 20 HIIT Programming, RunTV and web-based media access for news, entertainment and workout motivation. With standard features like HDMI streaming, Bluetooth connectivity and TV tuner options, this is a display that has something for every user.
